

## WASTE MANAGEMENT

### CUSTOMER INFORMATION

Thank you for choosing JMB Waste Management for your bin service. We will handle your waste and recycling very efficiently and in an environmentally responsible way.

There are two bin sizes available, 15 and 30 cubic yards. These bins are available with and without lids. There are also cardboard recycling bins, please refer to the pictures on our website.

**Weight Restrictions:** Our maximum load weight is 5 metric tonnes.

**Alberta Traffic Laws:** Dictate that our loads must be secure, all bins must be tarped, please do not load over the top rails.

**Best Service:** 24 hours' notice works best, however sometimes we can provide same day service.

Please do not put these items in your general waste bin:

- Paint, oil, chemicals
  - Fluorescent light bulbs and ballasts
  - Electronics/ TVs
  - Concrete – We can haul it in a special bin, 5 tonnes for each load, spread evenly over the floor of the bin.
  - Creosote, chemically treated wood – we have a permit to take bin loads of it to The Shepard Landfill.
  - Food waste – Bins containing food waste must be hauled to the Spyhill Landfill. Our local landfill does not accept food waste.
- } Please call for the correct disposal.

### THE LANDFILLS

#### The Francis Cooke Landfill in Exshaw:

This is a 'Class III' waste facility accepting only dry met material no liquids, foods, paints, fluorescent light bulbs, ballasts. The Francis Cooke has been recognized as a leader in recycling and waste diversion. Incentive rates are offered for a specific material load. Please see our rate sheet on the website for further details. There is a problem with high wind here and they insist on loose litter being bagged.

#### The Spyhill Landfill in Calgary:

A 'Class II' Landfill and they do accept food waste and pressure treated wood.

#### The Shepard Landfill in Calgary:

A 'Class I' landfill accepting some hazardous waste – this is where we take creosote treated wood.

Please contact us if you have any questions at all, visit our website at [www.jmbwaste.ca](http://www.jmbwaste.ca), email [jmbwaste@telus.net](mailto:jmbwaste@telus.net), or by phone at 1 (403) 762-21
